*January 2003*

## INTRODUCTION

The Maryland Department of Juvenile Justice's Office Research and Program Development is pleased to present its 2001 Annual Statistical Report. The Annual Statistical Report brings together, in a single volume, descriptive statistics<sup>1</sup> of the Maryland Department of Juvenile Justice (DJJ). This report serves as an essential reference book. The numbers contained in this report are used in capital planning, three-year planning and budget documents. Executive, professional, and legislative staff as well as the public relies on these statistics. The Annual Statistical Report contains two sections.

**Section One** of the report provides the intake profile, which includes case-related information from referral to the court disposition stage. In FY 2,001, the Department's Intake Officers handled 52,441 cases. This number of cases represents 35,277 youth. The intake process determines if a youth requires formal court intervention or can be served by pre-court supervision or by processes known as resolving or disapproving the case at intake. A case is counted each time a youth is referred on a new charge during the year.

**Section Two** provides information about services provided to youths in nonresidential and residential programs. This section contains statistics on DJJ contracted programs, community supervision, and residential services and secure commitment programs. In FY 2001, the Department served 5,943 youths in out of home placements, including secure detention programs. A separate table of contents is provided for Sections One and Two.

---

<sup>1</sup>

The statistics included in this report have been subject to a detailed quality assurance process that involved removing erroneous cases and minimizing the occurrences of missing data. Because of this quality assurance review, the statistics presented in this report may slightly vary from those included in earlier Departmental documents.
